Q1. Program based on Classes and Objects

Score: 0.00 TC: 0/3 passed

CODE

```
import java.util.Scanner;
class Student{
    int rollno;
    String name;
    double marks;
    void display(){
        System.out.println("Roll No: "+rollno);
        System.out.pritln("Name: "+name);
        System.out.println("Marks: "+marks);
    }
}
public class Main{
    public static void main(String[] args){
        Scanner sc = new Scanner(System.in);
        Student A = new Student();
        A.rollno = sc.nextInt();
        sc.nextLine();
        A.name=sc.next();
        A.marks=sc.nextDouble();
        A.display();
    }
}
```

INPUT

```

Q2. Initialize Object Data Using Setter Methods

CODE

```
import java.util.Scanner;
class Student{
    private int rollNo;
    private String name;
    private double marks;
    public void details(int rollNo,String name,double marks){
        this.rollNo = rollNo;
        this.name=name;
        this.marks=marks;
    }
    public void displayDetails(){
        System.out.println("Roll No: "+ rollNo);
        System.out.println("Name: "+ name);
        System.out.println("Marks: "+ marks);
    }
}
public class Main{
    public static void main(String[] args){
        Scanner sc = new Scanner(System.in);
        int rollNo = sc.nextInt();
        sc.nextLine();
        String name = sc.nextLine();
        double marks = sc.nextDouble();
        Student s = new Student();
        s.setrollNo(rollNo);
        s.setName(name);
        s.setMarks(marks);
        s.displayDetails();
    }
}
```
